

SOUNDVISION PRO™

The Soundvision Pro has been designed for the professional home theatre market and high end audio visual installations in venues such as hotels, restaurants, bars and clubs. This front projection screen technology represents the ultimate sound and visual experience, be prepared to be blown away by the quality and performance of this screen – nothing comes close. The slimline frame design comprises of a honey combed sound board, with special audio transducers and a high gain aluminium foiled surface offering true colour reproduction, superior contrast and perfect black levels, creating life like images. For individuals who have a need to be different and a desire for the very latest innovative technology, this is a must have product. This screen is a stand alone speaker or can be used as the centre speaker as part of a surround sound system
