

PRODISPLAY®

PRO DIFFUSION REAR PROJECTION SCREEN

Pro Diffusion screen (professional cast material) – a grey tint rear projection screen – providing unparalleled image quality and perfect colour reproduction. This unique screen technology recreates a high definition TV quality image, similar to that of a TV Screen, making it the ideal solution for all video applications.

One matt surface and one gloss surface (reversible) and the only diffusion screen technology providing true 180° visibility. A hand cast screen technology offering superior image quality in relation to extruded or coated screens. Pro Diffusion offers high gain and high contrast making it ideal for all rear projection applications.

A reversible material with a gloss surface for TV quality images or a matt surface to eliminate reflections from other light sources.

SPECIFICATIONS
