PDLC Switchable Smart Film & Glass is changing the face of home innovation. Offering a range of practical applications in the home and office, Pro Display's Switchable technology division, Intelligent Glass, manufacture Switchable privacy, projection and display products that can be installed as full solutions with specialist glass options or as a retrofit film solution. Switch on today and get in touch to learn more.

BRITISH MANUFACTURER

Pro Display is a British manufacturer dedicated to quality and reliability. We manufacture, assemble and dispatch a wide range of industry leading visual display solutions, switchable smart glass and interactive touch technologies from our European headquarters, located in South Yorkshire. Working with such a diverse range of companies from around the world, we understand that projects are not always clear-cut and often require bespoke solutions to meet requirements. In addition to a cutting-edge production facility and a clean-room environment, we also have an in-house packaging department dedicated to producing hand-crafted protective crates, built to the exacting needs of each shipment.
