

Switchable Double Glazing

Switchable Double Glazing provides the ideal switchable solution for external windows, bi-fold systems and conservatories. This energy efficient solution is manufactured using swiss warm-edge spacers and argon insulated to provide enhanced thermal performance with privacy on demand.

Switchable Double Glazing provides a robust solution where the switchable interlayer is laminated and protected inside the cavity.

Switchable Double Glazing is available in 18mm, 24mm and 28mm thicknesses as standard in panel sizes up to 1.8m x 4m. Custom thicknesses, panel sizes and glass specifications are available on request.

Specifications

- Thickness – 18mm, 24mm or 28mm
- Sizes – Up to 1.8m x 4m
- Voltage – AC 48-65V
- Power Consumption – 5W per m2
- Current – 0.1 amperes per m2

Benefits

- Suitable for external glazing
- Suitable for bi-fold systems
- Energy efficient solution
- Custom sizes and thickness available
- Smart home compatible

Applications

- External glazing
- Bi-fold systems
- Acoustic glazing
- Bathrooms
- Conservatories

*Switchable Glass dimensions are subject to a tolerance of +/- 3mm.
