65SERIES

65" Interactive Touch Display

intouch with education

Intouch screens offer the ultimate immersive learning experience making education fun for both students and teachers. This next generation touch technology engages students like never before, allowing increased collaboration and efficient learning. Multi touch technology gives teachers the ability to create captivating learning experiences promoting student interaction / feedback. The high brightness backlit LED panel offers excellent visibility from every angle even in brightly lit environments meaning all students are inspired to learn. This 65" interactive display has been designed to meet the rigorous demands of any classroom guaranteeing long life and reliability at all levels of education. Intouch is both simple and intuitive and provides teachers with the latest and most responsive touch technology to support active and inspired learning. Set to revolutionise the education sector, intouch is taking learning to the next level, offering a quality and affordable alternative to competing touch screen technologies.
